FIP Coin:

Due to the impact of COVID-19 and current restrictions that are in place, we are not in the position to host half-time functions for membership categories that exceed allowed numbers. However, we understand complimentary food and beverage is an important part of Mates and Captains Club memberships, therefore, we will introduce a new Redlegs currency loaded onto a membership card that can be used at any canteen or bar in Coopers Stadium. FIP Coin (Fortis In Procella Coin) will be complimentary in Mates and Captains Club memberships to the value of \$100 and is intended to replace the complimentary food and beverages previously provided at half time functions. Members will be able to top up on FIP coin allowing for cashless and contactless transactions everywhere within Coopers Stadium, and receive more complimentary benefits throughout the season.

Western Stand Seating:

Under COVID 19 restrictions the Norwood Football Club will have manage the number of people within various areas of Coopers Stadium, including the Western Stand which is the only area currently with allocated reserved seating. With only a portion of the seats able to be occupied at the one time, the club is faced with a very difficult task of how to provide western stand access for over 800 current seat holders when COVID 19 will only permit 250 in the stand at any one time. Things may improve with reduced restrictions however we must plan for all scenarios.

We are exploring the limited options available under current restrictions and obviously keeping a close eye on changes to restrictions, however with the need to release membership categories for 2021 we have had to assume the ability to guarantee reserved western stand seating as not possible at this present time.

The following will now apply:

- The Western stand will become a General Admission system with access into the stand available for qualifying members who have the necessary entry pass. Once admitted, members can sit in any seat (unless marked reserved for match day purposes) but must adhere to COVID restrictions EG – one seat spare between each member.
- Entry passes will need to be reserved by qualifying members by Tuesday 3 pm before each home match game. This reservation process is still to be finalised but will require qualifying members to indicate they are attending the match and if successful members will pay \$10 for the seat and they will be emailed a western stand entry pass for use at the upcoming game only.
- Current western stand seat holders will be given first opportunity to become a qualifying member and retain western stand entitlement subject to the reservation process.
